Choices		
Prepared for March 7, 2016 Meeting of the Tucson Charter Review Committee		
Raphael J. Sonenshein, Ph.D.		
Assumptions Based on Previous Committee Discussion		
Cost is a factor. What savings can be projected to make any of the choices reasonable on a cost basis?		
External factors may influence outcomes: court decisions, ballot measures such as requirement for jungle primary		
Minimal change to the current system would be preferable.		
Goals are governing effectiveness and responsiveness to the community.		
Actionable choices before April 1
